PHOTO ISSUE #2

PHOTO ISSUE #2

WOW.....A couple summers ago I sat down and put together an all photo issue. Inspired by the greats who influenced me, I put my crude skills to the test and a 40 page zine of the world as seen thru my eyes (or lens) went from concept to reality. I had a lot of fun doing that issue. Going thru old photos, some shot as far back as 1988, was a nice trip down memory lane. It gave me a chance to relive old shows, remember my favorite clubs and some wild road trips.

Fast forward to 2018 and here I am, working on another photo issue. I have travelled so much in the last couple of years and shot so many bands and even some skaters, I thought it might be time to do another issue. The world or my world shared with those of you who seem to care.

The following people helped make this issue possible, inspired me, or are just plain deserving of my thanks: Bobby "Draws Skullz" Brown, Shred Legion Crew, Jason and Sarah Bush, Chris In-Effect, Aaron Cometbus, Kent & Ebullition, Adam, Vique and the crew at RevHQ, my brothers at DroidxRage, Joey & Irish Voodoo Records, Chris Alpino, Nick NMZ, Lindsey Kuhn, Freddy Alva, Dean BTL & Melanie, Dagger Chuck , Scene TV Raw, Matt Fluke, the fine folks at Juice Mag, Bee, Ashley and the Vegas Zine crew, Nimbus Skateboards, and each and every one of you who have ever checked out an issue, let alone spent your hard earned money on one. I am humbled! And to my greatest inspiration of all, AmyXEdge...thank you for all you do and have done for my life!

The dedications section sucks. I'd like to go back to thanking someone for inspiration for even just one issue, but the universe seems to have another plan. We keep losing some good ones and it is never easy. I just hope each one of these souls has moved on to bigger and better things...HK!

This issue is dedicated to Will. We were friends from the first time we met. I can't even begin to think about all the hours we talked about comics, Star Wars, life and the world. You always had my back even when I was the unpopular topic at hand. I'll never forget who my friends are... REST IN POWER!!!

COLLECTOR'S CORNER

Collector's Corner has taken on a different feel for this issue. I made the decision late last year that it was time to pass some of my oldest and rarest records on to some of you. Doing the label is a pretty expensive venture and I made the choice I would rather put out some great records than have a crazy, out of control record collection. I let a bunch of my rarest records go and replaced them with GASP….reissues. I can still listen to them, yet someone who has been on the hunt for that elusive record now has it in their collection. A passing of the torch, if you will.

Thank you to everyone who purchased one or more records from me, to those of you who passed along my info, and sent people my way. As always, I can't do what I do without everyone's support and it means more to me than I could ever express in the written word on these pages.

The remaining records are up on the site www.notlikeyourecords.com and I will continue to add more as time goes on. If something catches your eye, please get in touch.

With that being said, I am still on the hunt for a few things and may always add more. If you have something I need please get in touch and let's trade or work something out. For now, here's my super extensive list of wants.

Bl'ast "Rob Roskopp Santa Cruz Poster" **Cometbus** Issues 1-25 **The Faction** "Any test presses" **Geek Attack** "Skate Zine Issues" **Snob Club** "Skate Zine Issues **Other Old Skate Zines** (especially self published small run stuff from the 80's) **TCO** (The Corrupted Ones) 7" **Underdog** ANY Test Presses (not Bridge 9)
